Subject: Center for the Intrepid

Dear Redonna,

I am very pleased to write this letter of recommendation to Gomez Flooring for the work that was done on the Center for the Intrepid project. The Center for the Intrepid was, what I consider to be, a once in a lifetime project. Not often does a person or company get the chance to be associated with an endeavor that ultimately affects the lives of so many people in such a personal and positive way. Gomez Flooring was an important part of the team that accomplished a feat that many felt was impossible. CFI was a daunting undertaking and it was only through sheer determination and maintaining focus on the ultimate objective were we able to accomplish our mission. But it wasn't done without the help of all of our outstanding contractors of which Gomez Flooring was a key part. Your company performed admirably and was a great team player. Your management and field personnel understood the task and met it head on without question.

I am extremely proud to have been associated with the Center for the Intrepid project and just as proud to have worked so closely with Gomez Flooring and would gladly do so again at any time. I thank you for your dedication and for your excellent work.

Regards,

Michael Shaw
Senior Project Manager
